8	323-06	3/8" Flange Nut	2

# Step by Step Instructions

*Note: Installation of the tank in this configuration will typically cover up the slow moving vehicle sign. Parts have been provided to relocate this sign. Prior to installing the tank, remove the Great Plains slow moving vehicle assembly.*

1. Using four (4) u-bolt kits provided, attach P/N 400-3171Y1 to rear frame as shown. *Note: Bracket should touch the inside of the bolt plate of the rear hitch assembly.*
2. Position tank assembly on the tank brackets and check for clearance with rear lift assist wheel assembly.
3. Fasten tank assembly to tank mounting brackets using four (4) 5/8" x 1-1/2" hex head bolts flat washers and flange nuts.

4. Fasten 449-3137Y1 to the tank cradle using two (2) 3/8" x 1" hex head bolts and flange nuts.
5. Remove the sign and sign bracket from the SMV assembly and fasten to 449-3137Y1 using the existing carriage bolts.
6. Re-tighten tank straps after filling the tank.
