Hitch Mounted Tank Adapter Plate Mounting Instructions

Kit Number: 530-00-800500 (Pedestal Adapter - 8" Hitch to 10" Hitch)
 Kit Number: 530-00-800510 (Pedestal Adapter - 8" Hitch to 12" Hitch)

ITEM NO.	PART NUMBER	DESCRIPTION	QTY.
1	400-5525Y1	2424Y2 Adapter Plate for 10" Wide Hitch	4
2	Pedestal	Tank Pedestal Provided with Your Tank Kit	2
3	300-120200-5	3/4" x 2" Hex Head Bolt - G5	8
4	300-120XXX	3/4" Long Hardware for Your Application	8
5	323-12	3/4" Flange Nut	8

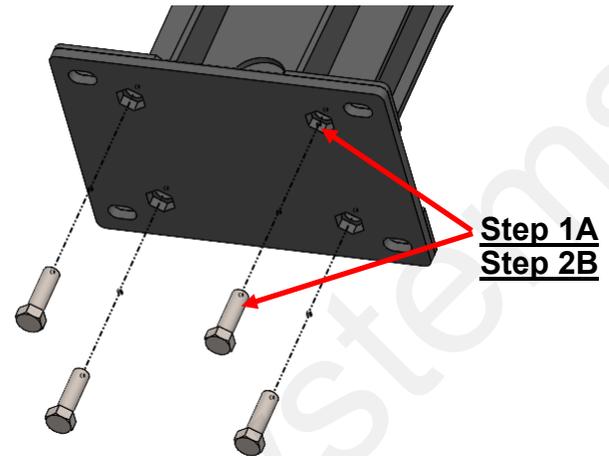

Step by Step Instructions

530-00-800510 (A)

1. Bolt the tank adapter plates to the bottom of the pedestals using the 3/4" x 2-1/2" bolts, washers, and nuts. Tighten the adapter plate to the pedestal.
2. Use the extra adapter plates as backer plates on the bottom of the hitch. Using the long 3/4" bolt and hardware, mount the pedestal to hitch.
3. Follow the provided tank mounting instructions for the remaining steps to mount your tank.

530-00-800500 (B)

1. Place the long 3/4" hardware into the adapter plate first. The bolt head will sit under the pedestal once the adapter plate is bolted on.
2. Loosely bolt the adapter plate to the bottom of the pedestal. This kit provides adjustment from a 9" to 10" hitch. Do not tighten adapter plate to the pedestals until the long 3/4" bolts are in your desired configuration.
3. Use the extra adapter plates as backer plates on the bottom of the hitch. Using the long 3/4" bolts and hardware, mount the backer plates under the hitch.
4. Follow the provided tank mounting instructions for the remaining steps to mount your tank.
